Sauer-Danfoss Introduces New Web Site

The New Sauer-Danfoss Web Site Puts Comprehensive Product and System Information at Your Fingertips.

NORDBORG, DENMARK – SAUER-DANFOSS INC. (NYSE:SHS) Sauer-Danfoss has launched a new company web site designed to provide comprehensive product, system, and company information. The result of an extensive development process, the new web site features intuitive navigation, easily accessible literature, and full text search functionality that enables visitors to find exactly what they are looking for – quickly and easily. As the demand for on-line information continues to grow, the new Sauer-Danfoss web site will help support effective market communication, share application knowledge, and strengthen customer relationships.

“Our new web site better represents our brand, values, product portfolio, and systems competencies and will make it even easier to do business with Sauer-Danfoss,” said Lars Bech, Global Web Manager. “Through a development process that included customer interviews and user testing we have endeavored to make a web site that is both useful and usable.”

Extensive Application Knowledge

Tomorrow’s vehicles will require a higher level of vehicle management and electronics, improved productivity and ease of operation. With this in mind, the updated Applications area offers a range of information and system examples for off-highway vehicles. From market trends and application expertise, to suggestions for work, propel, steering, and control systems, this section provides ideas and inspiration for vehicle development.

Comprehensive Product Information

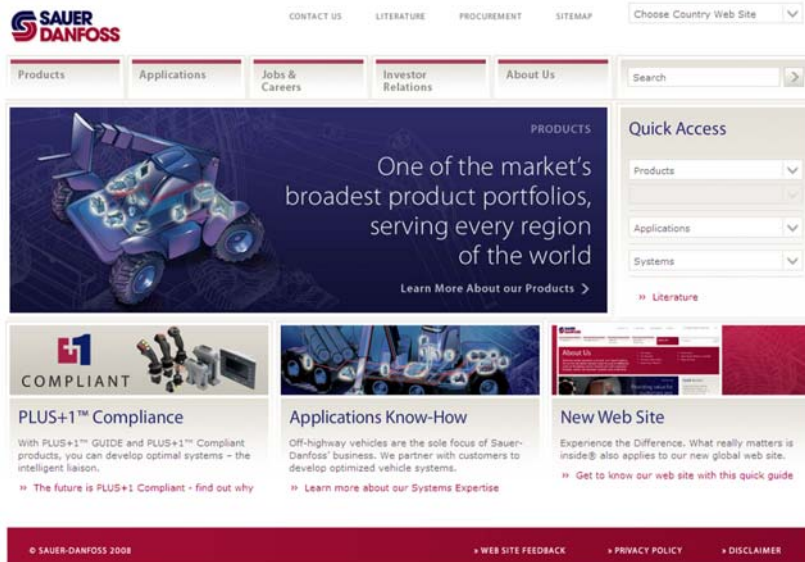

Fast access to product information and technical documentation is essential for design engineers. The Products area provides detailed information for all of the products in the Sauer-Danfoss portfolio. With features and benefits, technical data and documentation, and links to related information, the new web site guides design engineers to the right products for their applications.

Detailed Company Information

The new web site also contains a wealth of additional company information. The About Us and Job & Careers sections highlight the people, culture and values that make Sauer-Danfoss a market leader. The detailed Contact Us section enables visitors to find their nearest Sauer-

Danfoss contact, no matter where in the world they are located. To find out more, explore the Sauer-Danfoss web site at www.sauer-danfoss.com.
